オクトレオスキャンと並んで、NET の診断法として期待されている。

Chandigarh, India will be the site of the **2nd World Congress on Ga-68 (Generators and Novel Radiopharmaceuticals), Molecular Imaging (PET/CT), Targeted Radionuclide Therapy and Dosimetry: On the Way to Personalized Medicine** from February 28 through March 2, 2013. The meeting is being hosted by the **Department of Nuclear Medicine & PET, Postgraduate Institute of Medical Education & Research (PGIMER), Chandigarh (India)** and co-hosted by the **University of Iowa (USA)**. Based on the enormous success of the 1st World Congress on Ga-68 and PRRT, held in Bad Berka (Germany) in 2011, it is expected that about 500 delegates from across the world will attend the Congress in India.
